Why we are Still the 1

The facts on our financial strength

- + Insurance companies are required by the states, to maintain reserves to meet contract holder claims. Our reserves are mandated and monitored by the State Board of Insurance.
- + We have high ratings for financial stability from four major independent industry analysts — Standard & Poor's, A.M. Best, Moody's and Fitch. First SunAmerica is strong and well-capitalized.

The facts about safety

- + First SunAmerica is individually responsible for its liabilities associated with its products, and not for any obligation of any other company. Our company exceeds the capital requirements mandated by the New York State Insurance Department.

Tax-qualified contracts such as IRAs, 401(k)s, etc., are tax deferred regardless of whether or not they are funded with an annuity. If you are considering funding a tax-qualified retirement plan with an annuity, you should know that an annuity does not provide any additional tax-deferred treatment of earnings beyond the treatment by the tax-qualified retirement plan itself. However, annuities do provide other features and benefits such as income options.
